11. Student Loan Deferral

All student loan borrowers will automatically have their loan repayments and interest suspended until September 30, 2020. Students do not need to apply for the repayment pause.

This moratorium applies to the federal portion of student loans. Borrowers should check with their provincial or territorial student loan provider to see if payment is required on the provincial or territorial portion.

12. Fall 2020 to 2021 Support for Post-Secondary Student

Changes to Canada Student Grants and Loans have been introduced so students facing financial challenges from COVID-19 can access and afford post-secondary education. Pending government approvals, the new measures will come into effect on August 1, 2020 and be available to students for 1 year. In response to increased need for the coming 2020 to 2021 school year, the maximum amount of Canada Student Grants will be doubled. The Canada Student Grant for Full-Time Students will increase up to a maximum of \$6,000 and the grant for part-time studies to \$3,600. The Canada Student Grants for Students with Permanent Disabilities and Students with Dependents will also be doubled.

For the 2020 to 2021 school year, students will not be required to make their fixed student contribution; no spousal contribution would be required either. This will ensure that more students with need can qualify for more financial support. For the 2020 to 2021 school year, the weekly maximum loan limit will increase from \$210 to \$350. As a result, students could receive up to \$11,900 in Canada Student Loans to help them meet the rising cost of post-secondary education this coming school year.

13. Canada Emergency Student Benefit

This benefit would provide \$1,250 per month for eligible students or \$2,000 per month for eligible students with dependents or disabilities. This benefit would be available from May to August 2020.

14. National Service Initiative

We are launching the Canada Student Service Grant (CSSG), which will help students gain valuable work experience and skills while they help their communities during the COVID-19 pandemic.

For students who choose to do national service and serve their communities, the new CSSG will provide up to \$5,000 for their education in the fall.

More details will be made available on the “I Want to Help” platform soon.

15. Old Age Security (OAS) and Guaranteed Income Supplement (GIS)

The payment for seniors provides support through a one-time payment: \$300 for seniors eligible for the Old Age Security pension, and an additional \$200 for seniors eligible for the Guaranteed Income Supplement.

This measure will give a total of \$500 to seniors who receive both the Old Age Security pension and the Guaranteed Income Supplement, and will help them cover increased costs caused by COVID-19.

The one-time payment for seniors is available to individuals who are eligible to receive the Old Age Security pension or the Guaranteed Income Supplement in June 2020.

A one-time separate payment will be issued during the week of July 6, 2020. If you reside in Canada, you should receive the payment that week. Direct Deposit is the fastest way to receive the payment. If you reside outside Canada, the payment will be received in July, but expect delays for cheques given international postal disruptions.

The one-time payment for seniors will be paid to your bank account if you are enrolled for Direct Deposit. If you are not enrolled for Direct Deposit, you will receive a cheque.

We encourage recipients of the Old Age Security pension and the Guaranteed Income Supplement who currently receive payments by cheque to sign up for direct deposit to avoid payment delays.

[Sign up for direct deposit](#)

Everyone will receive one payment. If you only receive the Old Age Security pension, you will receive a separate single payment of \$300. If you receive the Old Age Security pension and the Guaranteed Income Supplement, you will receive a separate single payment of \$500. If you receive the Allowance or the Allowance for the Survivor, you will receive a separate single payment of \$500.

You and your spouse or common-law partner will each receive \$500 if you are both receiving the Guaranteed Income Supplement. For couples where one partner receives the Guaranteed Income Supplement and one partner (between the age of 60 and 64) receives the Allowance, the partner receiving the Guaranteed Income Supplement will receive \$500 and the partner receiving the Allowance will receive \$500.

Recipients of the Allowance for the Survivor will receive the \$500 for the Guaranteed Income Supplement. The one-time payment for seniors is non-taxable. You will receive the full amount (no withholds). You will not receive a tax slip and you will not have to report this amount in your 2020 tax return. The individual does not need to report the payment on their 2020 tax return. Any withholds on OAS or income-tested benefits (such as recovery tax, garnishment or statutory set-off) will not affect entitlement to the full amount of the payment. The payment will be issued in the same manner as the recipient's OAS monthly benefits, but will be sent as a separate direct deposit or cheque. Payments will be issued during the week of July 6, 2020. If you reside in Canada, you should receive the payment that week. If you reside outside Canada, the payment will be received in July, but expect delays for cheques given international postal disruptions. If an individual becomes entitled to an OAS pension or income-tested benefit retroactively to June 2020 (or earlier), the payment will be issued at a later date.

A special one-time-tax payment to individuals who are certificate holders of the Disability Tax Credit (DTC) as of June 1, 2020, as follows:

\$600 for Canadians with a valid DTC certificate.

\$300 for Canadians with a valid DTC certificate and who are eligible for the Old Age Security (OAS) pension.

\$100 for Canadians with a valid DTC certificate and who are eligible for the OAS pension and the Guaranteed Income Supplement (GIS).

16. Onetime payment to persons with disabilities (New 08/21/2020)

The Government of Canada announced a one-time \$600 payment in recognition of the extraordinary expenses faced by persons with disabilities during the COVID-19 pandemic. Additional expenses incurred by persons with disabilities due to the COVID-19 pandemic may include:

- paying higher costs for personal protective equipment
- hiring personal support workers and accessing other disability supports
- paying for increased costs for medical supplies and medication
- higher internet costs associated with physical distancing, and
- increased use of taxis and home delivery services to obtain groceries and prescriptions

To ensure you get the support you need, we are extending the payment to additional beneficiaries of disability supports programs. Approximately 1.7 million Canadians will receive the one-time payment.

Seniors with disabilities, who were eligible for the one-time seniors payment announced on May 12, 2020, will also be eligible for the one-time payment to persons with disabilities.

- If you are eligible for both payments, you will receive a total amount of \$600 broken into 2 payments:
- if you received the \$300 one-time seniors payment for the Old Age Security (OAS) pension, you will receive an additional \$300
- if you received the \$500 one-time seniors payment for both the OAS pension and the Guaranteed Income Supplement (GIS) or the Allowance, you will receive an additional \$100

You do not have to apply to receive this payment. The payment consists of a one-time, non-taxable and non-reportable amount of \$600.

We expect to issue the payments beginning this fall. The payment information will be provided on this page once available.

17. Extra time to file income taxes

Filing due date for 2019 tax returns of individuals (other than trusts) deferred until June 1, 2020. The CRA encourages everyone to file their income tax returns as soon as possible, even though payment deadlines are being extended. However, recognizing the difficult circumstances faced by Canadians, the CRA will not charge late-filing penalties where a 2019 individual return or a 2019 or 2020 corporation, or trust return is filed late as long as it is filed by September 30, 2020.

<https://www.canada.ca/en/revenue-agency/campaigns/covid-19-update/covid-19-filing-payment-dates.html>

We are temporarily extending GIS and Allowance payments if seniors' 2019 income information has not been assessed.

This will ensure that the most vulnerable seniors continue to receive their benefits when they need them the most. To avoid an interruption in benefits, seniors are encouraged to submit their 2019 income information as soon as possible and no later than by October 1, 2020.

Benefit payments will continue for an additional three months for those who are not able to file their 2019 returns on time. Eligible Canadians who are presently receiving the Goods and Services Tax/Harmonized Sales Tax (GST/HST) credit and/or the Canada child benefit (CCB) will continue to receive these payments until the end of September 2020.

If the 2019 tax return is not assessed, and to allow time to calculate benefits and/or credits for the July to September 2020 payments, payment amounts will be based on information from 2018 tax returns. If 2019 tax returns are not received and assessed by early September 2020, estimated benefits and/or credits will stop in October 2020 and the taxpayer will have to repay the estimated amounts that were issued as of July 2020.

Penalties (including late-filing penalties) and interest will not be applied if returns are filed and payments are made by September 30, 2020. Includes the June 15, 2020, instalment payment for those who have to pay by instalments.

18. New Indigenous Community Support Fund

This fund helps Indigenous communities prevent, prepare and respond to COVID-19. On-reserve and self-governing First Nations communities and Inuit Nunangat Regions will receive funding directly from ISC. Métis will receive funding through existing mechanisms to facilitate the speed at which funding can be received. Regional, urban and off-reserve Indigenous organizations need to apply through a call for proposals.
